

WESTERN SECURITIES

ESTABLISHED · 1932

THANK YOU!

Thank you for attending the third Stadium Shopping Centre Community workshop on April 15.

The purpose of the third workshop was to review a proposed site concept that took into consideration community feedback and response from the previous two workshops and additional meetings/comments, a transportation plan provided to the City of Calgary for review and feedback, and the work of the Western Securities' design and planning consultant team to-date.

Over 50 people attended the third workshop where we collected an abundance of extremely useful feedback from attendees. You will find comments, questions and answers and a copy of the third workshop presentation online at www.westernsecurities.ca/stadium. We will be taking all of the feedback we have obtained from the community and additional stakeholders, including the City of Calgary, and will then present a more complete Masterplan via an Open House which will likely take place this spring.

We welcome any additional comments, questions or suggestions that you may have regarding the third workshop and any other material we have presented to-date. We encourage you to connect with us via stadium@westsec.ca or call us at 403.263.6940.

As always, we will be providing project updates via our website and encourage you to check back often.

Thank you again from the Western Securities team for your commitment and interest in this project, and for continuing to stay involved in the masterplanning process.

Regards,

Mike Brescia
